Re: Muhlenberg Campus Study

Dear Residents of the City of Plainfield, Stakeholders and Community at Large:

First and foremost, I want to take this opportunity to once again thank all of you for your great interest and engagement in the process of the Muhlenberg Campus Study. This very intense six-month process has produced the enclosed final report from our consultants, Heyer, Gruel & Associates.

Your input, opinion, and engagement in this process were extremely valuable and important in achieving the results of the study. As you well know, this is just the beginning of a process that would require all of us continuing to work together in order to bring about the best possible use of the site under these current economic conditions. However, my commitment to the residents of our City remains the same – a focus on healthcare and a transparent and open dialogue during the process of any proposed potential development for the site.

The community's input was invaluable in creating the Study and we appreciate the involvement of all the individuals and community groups that participated. Together, we will bring about a great project that's beneficial to all.

Sincerely,

Honorable Adrian O. Mapp
Mayor
